

ODPRITE SRCA ZELENIM NAVADAM

Open your hearts to green habits

ZAČUTITE Velenje kot svoj zeleni dom, kjer spodbujamo domačnost in gostoljubnost.
Feel Velenje as your green home, homey and hospitable.

NAMESTO z avtom se po Velenju raje gibajte peš, s kolesom ali se zapeljite z Lokalcem.
Instead of exploring Velenje by a car, opt for walking, cycling or take a local bus Lokalce.

KREPITE lokalno dobavno verigo - z nakupom in promocijo lokalnih pridelkov in izdelkov spodbujajte lokalno gospodarstvo, zmanjšajte ogljični odtis ter blažite klimatske spremembe in užijte pristno lokalno izkušnjo.
Strengthen local supply and sale chain- by purchasing local produce and products you help preserve local economy, reduce your carbon footprint and diminish climate change while experiencing authentic local environment.

POMAGAJTE ohraniti občutljivo naravno ravnovesje in stopajte po uhojenih in označenih poteh. Namesto teptanja trave, raje občudujte divje cvetoče travnike, ki so pašniki za avtohtone slovenske čebele.
Help preserve the delicate natural biome by following the well-trodden and marked pathways. Instead of trampling the grass, admire wild flowering meadows that provide pasture for native Slovenian bees.

OBISČITE velenjske muzeje, galerije, tradicionalne dogodke, kulturne hiše in zbirke ter prispevajte k ohranjanju lokalne kulture in umetnosti.
Visit Velenje's museums, galleries, traditional events, cultural houses and collections to contribute the preservation of local culture and art.

KUPITE stekleničko za večkratno uporabo in si privoščite Šaleški biser na številnih pitnikih v mestu.
Purchase a reusable water bottle and enjoy the spring waters of Šaleški biser from multiple drinking fountains throughout the city.

POMAGAJTE ohraniti Šaleški biser - raje izberite krajše tuširanje namesto kopeli, med umivanjem zob zaprite pipo in uporabljajte okolju prijazne izdelke za čiščenje in osebno higieno.
Help preserve the Šaleški biser by choosing shorter showers instead of baths, close the tap while brushing your teeth and use environment friendly products for cleaning and personal hygiene.

NAJ okolje in narava lovita svoje signale. Ko je le mogoče, izklopite iz vtičnic vse elektronske in druge naprave.
Let nature and environment communicate in their way: whenever possible unplug and disconnect all electronic devices.

VARUJTE zdravje z vestnim izvajanjem ukrepov za zagotavljanje higienskih standardov, prilagojenih aktualnim zdravstvenim razmeram.
Mindfully follow current sanitary measures to help maintain hygiene standards and stay healthy.

OMEJITE ustvarjanje odpadkov z odgovornim potrošništvom - kupite, kar potrebujete, namesto nakupa novih stvari poskusite popraviti ali ponovno uporabiti stare, izmenjujte si uporabne predmete.
Reduce the amount of waste you create with responsible consumerism: buy only what is needed and if possible, repair and reuse still functioning items or exchange them among your community.

VAŠA NAJLJUBŠA ZELENA NAVADA:
What is your favourite green habit?
